PROFESSIONAL SUMMARY

Full Stack Developer with hands-on, production experience building scalable web applications using Java, Spring Boot, and React.js. Proven track record delivering production systems end-to-end, including an LMS platform and a temple management system with employee and admin portals. Skilled in REST API design, relational databases, and modern frontend development, with a strong focus on writing clean, maintainable code and collaborating across teams to deliver business-impactful results.

TECHNICAL SKILLS

Backend: Java, Python, Spring Boot, Hibernate, REST APIs, PostgreSQL, JUnit, CI/CD, Kubernetes, AWS, Spring AI

Frontend: React.js, JavaScript, HTML5, CSS3, Bootstrap, jQuery

Database: MySQL

Tools & Practices: Git/GitHub, Maven, Agile/Scrum, API Integration, Debugging & Code Review, Docker [CONFIRM IF USED]

PROFESSIONAL EXPERIENCE

Associate Software Developer | KeeHoo Pvt Ltd

Oct 2024 - Present

- Developing and maintaining full-stack features across multiple production applications using Java, Spring Boot, and React.js.
- Built an LMS (Learning Management System) — an e-learning platform comparable to Udemy/Coursera — covering course catalog, content delivery, and user-progress tracking, using Java/Spring Boot on the backend and React.js on the frontend, supporting an estimated [ADD #] users and [ADD #] courses.
- Currently building Digi Devalaya, a temple management application, including a dedicated Employee Portal for staff operations and a Temple Admin Portal for administrative control, using Java, Spring Boot, MySQL, and React.js.
- Designed and consumed REST APIs across [ADD #] endpoints to connect frontend interfaces with backend services.
- Collaborated with cross-functional teams to translate business requirements into technical specifications and deliver features on schedule.

KEY PROJECTS

LMS – Learning Management Platform

- Built a full-featured e-learning platform (Udemy/Coursera-style) enabling course creation, enrollment, and content delivery.
- Implemented backend services in Java/Spring Boot and a responsive React.js frontend for course browsing and learning dashboards.

Digi Devalaya – Temple Management System

- Developing a dual-portal application: an Employee Portal for temple staff workflows and an Admin Portal for management oversight.
- Working across the full stack — Java/Spring Boot APIs, MySQL data modeling, and React.js UI — to deliver role-based access and operational dashboards.

EDUCATION

B.E.

SDM College of Engineering and Technology, Dharwad | Aug 2019 - Jun 2023

CERTIFICATIONS & ADDITIONAL INFORMATION

- Full Stack Java Development Certification [ADD: issuing institute/platform, month & year] — comprehensive frontend and backend development training

Languages: English, Hindi, Kannada (Native)

Soft Skills: Problem Solving, Communication, Time Management, Adaptability
